

**2018 adult services evaluation results**

We asked every adult who accesses our services to complete an evaluation form to help us improve services and anticipate impending demand. Below are the results of our key quality indicator questions:

We also ask about individuals personal circumstances, this helps us to understand an overall view of our membership and we can compare this to national averages:

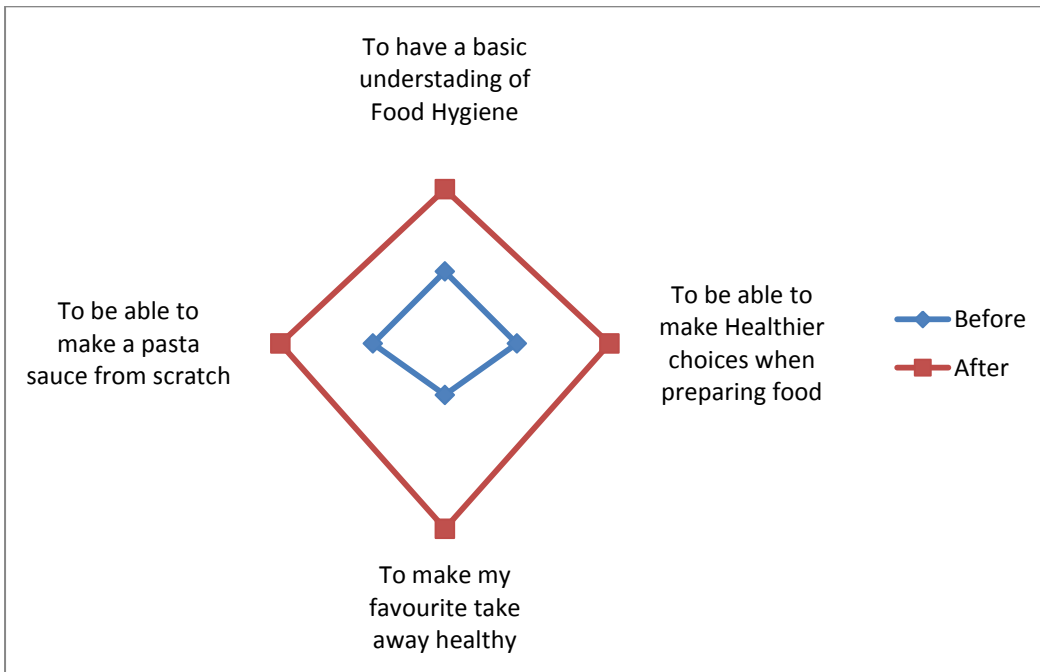

This shows us that the number of adults living at home sits in line with the national average however the number of people who class themselves as unemployed is significantly lower than elsewhere.

#### Skill development courses

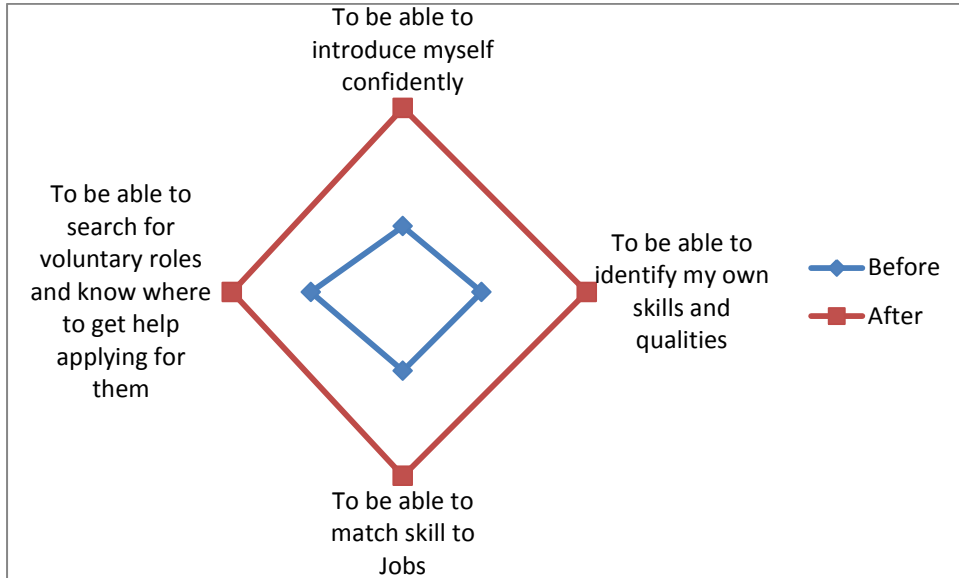

Each and every course that we deliver is measured against four objectives that are relevant to the course topic.

Learners self assess themselves against each objective at the beginning and end of the course to measure their progress. Below are each of the courses progression results:
